**INFORMATION DISCLOSURE STATEMENT**

S I R:

In compliance with the duty of disclosure under 37 C.F.R. § 1.56 and in accordance with the practice under 37 C.F.R. §§ 1.97 and 1.98, the Examiner's attention is directed to the documents listed on the enclosed Form PTO 1449. Copies of the listed documents are also enclosed.

The present Information Disclosure Statement is being submitted prior to the issuance of a first Office Action in the present application.

German reference 897 107 discloses a form cylinder for a rotary printing machine, which form cylinder has a cast cylinder body which is slipped onto a shaft and secured axially

between cones. This reference is discussed in greater detail in the specification of the present application and the Examiner's attention is respectfully directed to that discussion.

The remaining references were cited in a German application corresponding to the present application.

German reference 198 48 184 corresponds to U.S. Patent No. 6,186,065, a copy of which is also enclosed. This reference has a publication date subsequent to the priority date of the present application.

German reference 195 27 761 discloses a method for fixing a printing sleeve on a printing roller. Applicants do not have an English language translation of this reference readily available.

German reference 296 01 151 discloses a cylindrical body. Applicants also do not have an English language translation of this reference readily available.

German reference 198 05 898 discloses a printing unit for a rotary printing machine. This reference corresponds to U.S. Patent No. 6,085,650, a copy of which is enclosed.

German reference 27 00 118 discloses a printing roll. Applicants do not have an English language translation of this reference readily available.

European reference 05 86 881 discloses a rotary web printing machine for printing thick paper webs. Applicants do not have an English language translation of this reference readily available. However, an English language abstract thereof is enclosed.

The present invention defines a specific cylinder of a rotary printing machine which is not believed to be disclosed by the enclosed references.

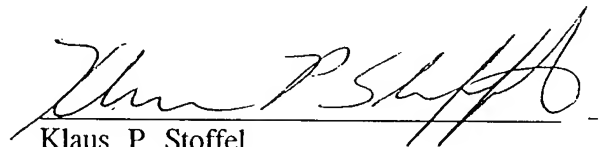

It is respectfully requested that the above information be considered by the Examiner and that the copy of the enclosed Form PTO-1449 be returned indicating that such information has been considered.

In accordance with 37 C.F.R §§1.97(g) and (h), the filing of this Information Disclosure Statement should not be construed as a representation that a search has been made or that information cited is, or is considered to be, material to patentability as defined in §1.56(b), or that any cited document listed or attached is (or constitutes) prior art. Unless otherwise indicated, the date of publication indicated for an item is taken from the face of the item and Applicant(s) reserve(s) the right to prove that the date of publication is in fact different.

If any fees or charges are deemed required at this time in connection with the application, the same may be charged to our Patent and Trademark Office Deposit Account No. 03-2412.

Respectfully submitted,  
COHEN, PONTANI, LIEBERMAN & PAVANE
